

13 Psychosocial Factors Assignment

Assignment:

Prepare a 15 minute presentation that you will share with larger group on your assigned psychosocial factor in any format of your choice. Please forward any materials (e.g., a handout, PowerPoint presentation etc.) to instructor Nancy Dubois at dubfit@rogers.com before the given deadline. Please have a separate presentation if you are addressing more than one factor.

In your presentation, please share:

- A description / definition of the Factor (with a reference if an existing definition is used)
- A few examples (2-3) of what it looks like in a workplace when this Factor is not being addressed well – what are the problems that can emerge?
- A few examples of what could be done in a workplace to PREVENT this Factor from becoming an issue.
- A few examples of what could be done in a workplace to ADDRESS this Factor if it has been identified as a problem.
- One “conversation starting” question to be posed to the learning group regarding this Factor.
- A short list (3-5) of recommended resources if people wanted to learn more about this Factor. These should be ones you found particularly helpful.
